

Julián Guillermo Agüero

FULL STACK WEB DEVELOPER

ABOUT ME

As a Junior Full Stack Developer, my objective is to reach a challenging position that allows me to continue honing my skills and expanding my knowledge within the IT sector.

With a solid background in management, I have developed exceptional interpersonal, communication, leadership, teamwork, and client and supplier management skills. These skills have contributed to my professional growth and ability to navigate diverse work environments.

I bring a strong sense of commitment, responsibility, dedication, and adaptability to every project I undertake. I firmly believe in the value of continuous improvement and actively seek out opportunities to learn and embrace new challenges.
